

Masterclasses Decorative Techniques

With Julien Gautier, Friederike Schulz and Gert Jan Nijse.

Saturday 11 and Sunday 12 May, after the Practical Friday of Decorative Techniques & Artisan Paintworks, our "Painter's Party" (Friday May 10) will continue for those who want to get to work themselves.

We have invited a few top qualified teachers from the decorative painting profession, to offer the chance developing your skills even more. All techniques will be carried out in the new glazing paint "Acrilino". Of course, sharing knowledge and a good portion of socializing are of paramount importance. We look forward to seeing you!

Julien Gautier

Julien Gautier is a decorative painter from France. He is educated by Yannick Guegan, amongst others. He is a talented painter and makes art for the most beautiful projects. He generally works in Nantes and Paris, but he also completed many projects internationally. His book *Art of Decorative Painting* has recently been published, with which he wants to share his knowledge and methods. He speaks perfectly English and would like to reveal his skills in his Masterclasses. Julien works with Acrilino Glaze in modern Decorative Techniques. In the Linova Masterclass, Julien will mainly focus on Trompe l'oeil techniques, he is a true specialist in this and can teach you a lot of tips and tricks.

J1 In his Masterclass on Saturday May 11

you will paint a decorative Trompe l'oeil panel with the title: "Knock on my door".

J2 In his Masterclass on Sunday May 12

you will paint 'faux' moldings and ornaments in a Grisaille technique.

Gert-Jan Nijssse

Gert-Jan Nijssse has been active in the field of imitation techniques for more than 30 years. He has learned the tricks of the decorative trade in various places in the Netherlands, Belgium and France. Due to the long search for the possibilities of low-solvent products, his insights were also requested in the development of the "Acrilino". The results were very convincing and the step to the right method was made.

This Masterclass gives the opportunity to become familiar with the possibilities of working effectively with Acrilino within the field of marble imitations. The feeling of being able to work in oil, but also to perform several operations within one day, means that 'on the job' the techniques can be carried out faster and equally convincingly. One must have a well/prepared plan, but then the implementation becomes fun!

G1 In his Masterclass on Saturday May 11

you will practice and learn about wood imitation Crotch of Lemonwood and heart-grain of Teak.

G2 In his Masterclass on Sunday May 12

you will create imitations of Grey "Brèche" and Red Levanto Marble.
